

## Inventory of Sounds in School / Educational Environments

**Bashinski & Yanuck (2009)**

**Purpose:** The purpose of this instrument is to assist parents to identify environmental sounds common to their child's individualized educational environments. Once family members have identified the sounds important to their child's safety, welfare, learning, and belonging, they can then select the sounds that occur most frequently and / or those they want to focus on their child's learning to detect via his / her cochlear implant. A few suggestions for teaching follow the inventory.

<b>Child's Name:</b> _____	<b>Gender:</b> _____
<b>Birthdate:</b> _____	<b>Today's Date:</b> _____

**Directions:** Place an **X** in the box for each sound that is present in your child's educational environment (to the left of each listed item). Use the columns to the right of each listed item to assess your child's skills in the detection and identification of the individual sounds.

Sounds in Your Child's School / Educational Environments	Your Child's Responses to the Sounds		Motivating Sounds to Target for Your Child to Learn
	Detection	Identification
